# YOUR CLIENTS. YOUR PROGRAM. WE BRING EVOLT 360.

Bring professional body-composition scanning into the programs you already run.

FOCUS Connect works with coaches, gyms, fitness professionals and sports teams to make Evolt 360 scanning accessible to their own clients, members and athletes.

*People.  
Places.  
Possibilities.*

## CREATE YOUR OWN CHALLENGE

Use scans at the beginning, throughout and at the end of your challenge or program to give participants another way to follow their progress.

## KEEP THE COACHING YOURS

You know your clients and athletes. You design the program and provide the coaching. FOCUS Connect brings the scanning experience to you.

## BUILD YOUR EVOLT KNOWLEDGE

Participating fitness professionals can access the available Evolt education and training/certificate opportunity, helping them better understand the information provided through Evolt scans and support their clients.

## BRING US BACK

FOCUS Connect isn't limited to a one-day event. Schedule baseline, progress and final scan events, or build recurring scanning into your programs throughout the year.

## FOCUS CONNECT COMES TO YOU.

**Based in Kamsack, Saskatchewan**

Travel available for partner events and programs.

*Your people.  
Your goals.  
Your FOCUS.*
